

2021 Summer Collaboration Meeting

Contribution ID: 120

Type: **not specified**

Discussion

Tuesday, 10 August 2021 11:55 (30 minutes)

For GRB science, what do we need in terms of:

- Alert stream contents & timescale
- Additional technical infrastructure / data products

Do we benefit from a higher-cadence experiment from the Pole? (Higher depth, higher cadence, longer revisit time)

Presenters: HO, Anna (UC;LBL); VIEIRA, Joaquin (University of Illinois at Urbana-Champaign;)

Session Classification: The Time-Varying mm-Wave Sky
