

2021 Summer Collaboration Meeting

Friday, 13 August 2021

Junior Scientist Talks (11:10 - 12:25)

-Conveners: Darcy Barron

time	[id] title	presenter
11:10	[49] Likelihood-approximations for large-scale CMB data	DE BELSUNCE, Roger
11:25	[50] Simulating and Mitigating the Atmospheric Effects for CMB ground-based Observations	MANDELLI, Stefano
11:40	[51] Forecasting Constraints on Squeezed-limit Non-Gaussianity Through μ -T Correlations Using CMB-S4 and SKA	ZEGEYE, David
11:55	[52] Taurus: A Balloon-borne Polarimeter for Cosmic Reionization and Galactic Dust	BENTON, Steven
12:10	[53] B-mode constraint from SPIDER's first flight with SMICA: a spectral based component separation pipeline.	SHIU, Corwin
