

# Workshop Closeout

Julian Borrill & John Carlstrom  
your outgoing co-Spokespeople

CMB-S4 Collaboration Meeting  
May 9-13, 2022

# Project-centric workshop

- The presentations clearly showed the impressive progress that has been made on the Integrated Project, at all levels. Congratulations and thanks to everyone.
- Analysis of Alternatives (AoA)
  - AoA is the highest priority of the Project / Collaboration; progress on it directly impacts our funding for FY23, and beyond.
  - By necessity, this is moving fast.
  - We are investigating several options, many specifically requested by the agency.
  - We are not making decisions; AoA results will help inform the path forward, including R&D
  - AoA results to be fully vetted and reviewed

# A few reminders / updates

- Collaboration leadership changing
  - Pub Speaker Cmt chair & Governing Board elections next week – please vote!
- Refreshing Committee memberships
  - Volunteer survey to be sent soon - please respond
- We need and value your contributions
  - Contribute to working groups; meetings and links on CMB-S4 google calendar
- Participate in Snowmass
  - Help make the case
  - Attend Seattle [Snowmass2021 meeting](#), July 17 - 26th

# Upcoming Collaboration Events

- [Astrophysics with the CMB-S4 Survey — Part II: Source and Transient Science](#) July 6-7th at UIUC
- [Snowmass in Seattle](#) July 17-26th
- In-person science-focused summer collaboration meeting, provisionally August 17-19 in Chicago

# Thanks

**Special thanks to the organizing committee,  
session conveners, presenters, and ...**

**and lastly...**

It has been an honor and a privilege to serve the Collaboration as CMB-S4 co-spokespeople.

We look forward to passing the torch to Kevin Huffenberger and Jeff McMahon.

**Thank you!**
